**2G3S are hosting the following event:  
Water – and why we shouldn't take it for granted**

**April 16 @ 7:30 pm - 9:30 pm**

Representatives from Anglian Water are coming along to talk to us about how they operate, what issues they face, and the campaigns they run. Among other things they will cover:

- where our water comes from, how plentiful or otherwise it is, and how to save water
- how to dispose of waste down the sink or toilet wisely so that we don't pollute our waterways with corrosive liquids, poisons, fats, solid waste such as wet wipes, etc
- the use of 'grey water' in new housing, and whether there is any scope for modifying existing domestic water supplies to make use of waste water

They are interested in feedback from us, so come along with your questions and let us know what your concerns are. This is a free event.
